DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The phrases “or” (claim 1, lines 7 and 8; claim 5) and “and/or” (claim 2) are vague and alternative. Moreover, it is unclear whether claim 9 and 10 is an independent claim or a dependent claim. If it intends to be an independent claim, the limitations in claim 1 must be reproduced in the body of the claims 9 and 10, respectively. If it intends to be a dependent claim, claims 9 and 10 do not properly modify claim 1 because claim 1 is directed to a method of operating an internal combustion engine whereas it appears that the claim 9 is directed to a control unit and claim 10 is to a piece of software for a stored program control unit. These inconsistencies make it unclear as to the limitations of claims 9 and 10, respectively.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 8 is rejected under 35 U.S.C. 102(b) as being anticipated by EP 0 802 322.

Allowable Subject Matter

Claims 1-7 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
